

SAOR Change Proposal No. 1 – David Morse June 27, 2019 - If the safety (or fairness to all the children) of our children is our only consideration we should discontinue the PPP and allow only adults to participate in SAOR.

SAOR Change Proposal No. 2 – David Morse, July 29, 2019 – If security is our primary concern we change discontinue the SAOR program immediately and change the gate code.

SAOR Change Proposal No. 3 – David Morse, June 27, 2019 – If getting members and their children more pool access is our primary concern we need to consider one of several proposals. Change the “Pre-school Plunge Program” to “Family Pool Use” to include only family members under the age of 18 when accompanied by their parents.

Reduce the age of SOAR participation to 18 and not in high school. (This reduces the chance of high schoolers bringing their non-member friends while allowing college age students or 18 year olds not in high school to participate).

Allow member grandparents to bring their member or non-member grandchildren.

With the exception of grandparents members are only allowed to bring their children, not other member’s children, any of their children’s friends or guests of any type (overnight or otherwise).

Non-member guests who have signed the non-member waiver are not allowed to bring their children.
